 - 10.1.2 The Party Applicant shall be liable to a System Access Charge which is based on such Party Applicant's output supply category in effect at any half hour period, whether Firm Output or non-Firm Output. A higher rate of System Access Charge is applicable to a Party Applicant with a non-Firm Output supply.
 - 10.1.3 When a Party Applicant under a Firm Output supply category subsequently ceases to offer a Firm Output by reason of unavailability of energy storage due to a planned or unplanned outage, it shall be subject to the System Access Charge applicable to Party Applicant with a non-Firm Output supply category.

Such determination shall be made in accordance with the procedures under the Renewable Energy System Access Agreement entered into between the Party Applicant and TNB.

- 10.1.5 Any amount which is due and payable under this Clause 10.1 which has not been paid by its due date shall accrue interest calculated on a simple basis at the rate equal to one percent (1%) above the base rate per annum then in effect at the principal office of Malayan Banking Berhad (or its successor-in-title), from the date such amount was due (including such date) until the date such amount is fully paid (excluding such date).

-----------------------	---

Where:

SAC_R = The applicable System Access Charge applicable to Party Applicant with a Firm Output supply as published in the Energy Commission's website at www.st.gov.my

or;

The applicable System Access Charge applicable to Party Applicant with a non-Firm Output supply as published in the Energy Commission's website at www.st.gov.my

- 10.2.2 The bank guarantee shall permit drawings by TNB thereunder to satisfy the payment obligation of the Party Application under the CRESS Guidelines. If any drawing on the bank guarantee is made by TNB in accordance with this NEDA CRESS Deed of Accession which results in the balance of the bank guarantee falling below the bank guarantee amount, the Party Applicant shall promptly replenish the bank guarantee to the full amount within seven (7) days of such drawing.
- 10.2.3 If the Party Applicant fails to furnish, replenish or renew the bank guarantee as described in Clause 10.2.1, 10.2.2 10.2.4 or 10.2.5 to TNB within the given time frame or for the prescribed duration of validity, as the case may be, then TNB may terminate this NEDA CRESS Deed of Accession, by giving notice to the Party Applicant. In the case of a Party Applicant registered under NEDA, the Party Applicant shall automatically cease to be a party to the NEDA Framework Agreement upon its receipt of such notice from TNB; and this NEDA CRESS Deed of Accession

shall cease to have any further force and effect and neither party shall have any claims against the other under it save for any claim arising from any antecedent breach.

- 10.2.4 For avoidance of doubt, any costs incurred for such bank guarantee shall be borne entirely by the Party Applicant. TNB shall have the right to revise the value of the bank guarantee at all times whenever TNB deems required during the validity period of the bank guarantee. If such revised bank guarantee value is required by TNB as aforesaid, Party Applicant shall provide the said revised bank guarantee within thirty (30) days upon TNB written notice to Party Applicant.
- 10.2.5 The bank guarantee shall remain valid for a term of five (5) years beginning from the date that Party Applicant is admitted as a NEDA Party. Subsequently, the Party Applicant shall renew the bank guarantee within seven (7) days prior to the expiry of the relevant bank guarantee. Such arrangement shall continue until the Party Applicant ceases to be a NEDA Party. Notwithstanding the above, the bank guarantee shall also be made to be valid for ninety (90) days after a Cessation Approval is issued to the Party Applicant under the NEDA Guidelines.
- 10.2.6 Party Applicant is under strict obligation to ensure that the bank guarantee is a continuing guarantee to secure the performance of its payment obligations under the CRESS Guideline.
- 10.2.7 TNB shall have the right to immediately call on the bank guarantee for any failure by Party Applicant to make payment to Single Buyer for the System Access Charge and any interest chargeable thereupon.

If the Party Applicant fails to provide to Single Buyer such evidence of expiry or termination, the Party Applicant shall not be eligible to sell Excess Energy and no payment for Excess Energy or any other energy shall be due to the Party Applicant for the relevant Billing Period.

10.4.1.2 Single Buyer shall send an invoice to the Party Applicant for amounts owed to Single Buyer by the Party Applicant in respect of each relevant Billing Period within seven (7) working days after the end of the relevant Billing Period, which shall be based on the pricing principles and formula outlined below, taking into account the different System Access Charges applicable at different half-hour periods during a given Billing Period:

- (a) In the case of a Party Applicant that declares itself as a Party Applicant with a Firm Output supply and Clause 10.4.1.2(c) does not apply, the System Access Charge will be determined as follows –

System Access Charge	$\text{SAC (daily)} = \sum_{i=1}^{48} (\text{MR}_{RED_i} - \text{EE}_i) \times \text{SAC}_{F_i}$
-----------------------------	--

- (b) In the case of a Party Applicant that declares itself as a Party Applicant with a non-Firm Output supply, the System Access Charge will be determined as follows –

System Access Charge	$\text{SAC (daily)} = \sum_{i=1}^{48} (\text{MR}_{RED_i} - \text{EE}_i) \times \text{SAC}_{NF_i}$
-----------------------------	---

- (c) In the case of a Party Applicant that declares itself as a Party Applicant with a Firm Output supply, but at any half-hour period during the Billing Period, its energy storage becomes unavailable due to a planned or unplanned outage the System Access Charge will be determined as follows–

System Access Charge	$\text{SAC (daily)} = \sum_{i=1}^{48} [(\text{MR}_{RED_{F_i}} - \text{EE}_i) \times \text{SAC}_{F_i}] + [(\text{MR}_{RED_{NF_i}} - \text{EE}_i) \times \text{SAC}_{NF_i}]$
-----------------------------	--

where:

SAC	=	System Access Charge (in RM) for such Billing Period;
MR _{RED}	=	The reading taken from M _{RED} (in kWh) as defined in CRESS Guidelines (in kWh);

SAC_{NF}	=	The applicable System Access Charge applicable to Party Applicant with a non-Firm Output supply as published in the Energy Commission's website at www.st.gov.my
i	=	an index referring to each half hour period of each day of the Billing Period;
$MR_{RED_{NF}}$	=	The reading taken from M_{RED} (in kWh) as defined in CRESS Guidelines (in kWh) during unavailability of the energy storage due to planned or unplanned outage (in kWh)

- 10.4.1.3 The Party Applicant shall pay the amounts owed to Single Buyer in relation to the Billing Period as invoiced by Single Buyer, within thirty (30) days of the date of the invoice.

10.4.2 Excess Energy Payment

- 10.4.2.1 Subject to Clause 10.3.1, Single Buyer may purchase and accept any Excess Energy in each Billing Period. The amount of Excess Energy shall be determined based on the formula below:

Excess Energy	$EE \text{ (daily)} = \sum_{i=1}^{48} Y_i \times P_{GC_i}$
----------------------	--

Y	=	The lower of; (a) the MR_{RED} ; or (b) the Declared Maximum Monthly Quantity (DMMQ) under the CRESS Guidelines (in kWh)
P_{GC}	=	The percentage of the energy allocated for the withdrawn Green Consumer
i	=	an index referring to each half hour period of each day of the Billing Period;

where:

Provided always that when the value of EE as determined in the formula above is less than 0, then EE shall be 0.

- 10.4.2.2 The Excess Energy shall be sold to Single Buyer under NEDA framework at the Excess Energy Rate, subject to system conditions, as advised by the Grid System Operator. The System Access Charge shall not be applicable for the Excess Energy supplied by the Green Energy Plant.
- 10.4.2.3 The Party Applicant may send an invoice to the Single Buyer for amounts owed to the Party Applicant by the Single Buyer in respect of each relevant Billing Period within seven (7) working days after the end of the relevant Billing Period, which shall be based on the pricing principles and formula outlined below:

Excess Energy Payment	$EEP = EE \times EER$
------------------------------	-----------------------

where:

- EEP = Excess Energy Payment (in RM);
- EE = Excess Energy as calculated in 10.3.2.1 (in kWh)
- EER = Excess Energy Rate; 8 sen per kWh or as defined in CRESS Guidelines.

- 10.4.2.4 If a Party Applicant refuses or otherwise fails to provide to Single Buyer access to the M_{RED} , no payment shall be made for Excess Energy for the relevant Billing Period.
- 10.4.2.5 Any submission of Excess Energy payment to Single Buyer after 14th of the month, the amount shall be automatically offset against the invoice for the System Access Charge in the subsequent Billing Period, without further notice.
- 10.4.3 **Set Off**
- 10.4.3.1 Where the Single Buyer is under an obligation under CRESS Guidelines to make any payment to a Party Applicant, the Single Buyer may (but shall not be obliged to) set off such payment against any amounts the relevant Party Applicant owes the Single Buyer in pursuant to the settlements under the CRESS Guidelines.
- 10.4.3.2 In the event that System Access Charge is higher than the Excess Energy payment, Single Buyer shall offset the amount due for Excess Energy against the applicable System Access Charges.

Net System Access Charge	$NSAC = SAC - EEP$
---------------------------------	--------------------

where:

NSAC	=	Net System Access Charge (in RM);
